**TERAGO INC.**  
**Notes to the Interim Condensed Consolidated Financial Statements**  
**(In thousands of Canadian dollars, except for per share amounts)**

---

**1. Reporting Entity**

TeraGo Inc. (the "Company") provides businesses across Canada with connectivity services, colocation services and enterprise infrastructure cloud services. The Company's head office is located in Canada at Suite 800 – 55 Commerce Valley Drive West, Thornhill, Ontario. The Company was incorporated under the Canada Business Corporations Act on December 21, 2000 and owns and operates a carrier-grade, fixed wireless, fibre-based, IP communications network, as well as cloud and colocation facilities in Canada targeting enterprise customers that require cloud, colocation, and connectivity services. The Company's common shares are listed on the Toronto Stock Exchange (TSX) under the symbol TGO.

**2. Basis of Preparation and Presentation**

These unaudited interim condensed consolidated financial statements ("interim financial statements") were prepared using the same accounting policies and methods as those used in the Company's consolidated financial statements for the year ended December 31, 2018 (the "2018 Consolidated Financial Statements") except as described in Note 3. These interim financial statements are in compliance with International Accounting Standard 34, Interim Financial Reporting ("IAS 34"). Accordingly, certain information and footnote disclosure normally included in annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB"), have been omitted or condensed.

The preparation of financial statements in accordance with IAS 34 requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements have been set out in Note 2 of the Company's 2018 Consolidated Financial Statements. The notes presented in these interim financial statements include only significant changes and transactions that have occurred since the last fiscal year. Accordingly, these interim financial statements should be read in conjunction with the Company's 2018 Consolidated Financial Statements.

The Company's operating results are subject to seasonal fluctuations that may be materially impacted quarter to quarter and, thus, one quarter's operating results are not necessarily indicative of a subsequent quarter's operating results.

The policies applied in these interim financial statements are based on IFRS issued and outstanding as at September 30, 2019. The Board of Directors authorized the interim financial statements for issue on November 6, 2019.

These interim financial statements include the accounts of TeraGo Inc. and its wholly owned subsidiaries, TeraGo Networks Inc., Mobileexchange Spectrum Holdings Inc., and Mobileexchange Spectrum Inc.

During the preparation of the interim consolidated financial statements, The Company determined that certain salary and related costs were presented as other operating expenses in the nine months ended September 30, 2018. The impact of the immaterial correction was an \$894 increase in salary and other related costs and a corresponding decrease in other operating expenses.

**(a) Functional and Presentation Currency**

These consolidated financial statements are presented in Canadian dollars, which is the Company's functional currency.

**3. Accounting Pronouncements Adopted in 2019****a) IFRS 16 Leases**

IFRS 16 introduced a single, on-balance sheet accounting approach for leases. Effective January 1, 2019, the Company adopted IFRS 16 using the modified retrospective approach by recognizing the cumulative effect of initially applying IFRS 16 as an adjustment to the opening balance of retained earnings at January 1, 2019. Comparative information has not been restated and continues to be reported under IAS 17.

---

**TERAGO INC.****Notes to the Interim Condensed Consolidated Financial Statements  
(In thousands of Canadian dollars, except for per share amounts)**

---

Under the new standard, the Company assesses whether at contract inception, such contract contains a lease based on the new definition of a lease. Under IFRS 16, a contract is, or contains a lease if the contract conveys a right to control or use an identified asset for a period of time in exchange for consideration. The Company has also elected to apply the practical expedient to grandfather the assessment of which transactions were leases, as previously determined by IAS 17 and IFRIC 4. Therefore, the definition of a lease under IFRS 16 was only applied to contracts entered into or changed on or after January 1, 2019.

**i) Significant Accounting Policies**

The Company records a right-of-use asset and lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, and subsequently at cost less any accumulated depreciation and impairment losses, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of lease payments that are not paid at the commencement date, discounted using the Company's incremental borrowing rate. Payments included in the measurement of the liability include fixed payments and payments expected to be made where a renewal/extension option is reasonably certain to be exercised. The lease liability is subsequently increased by the interest cost and decreased by lease payments made. The liability is remeasured when there is a change in the future lease payments arising from the exercise of extension options, changes in the assessment of extension options reasonably expected to be exercised, renegotiations with lessors and contract amendments, changes in the scope of a lease due to certain contract rights being exercised, and changes in assessments of termination options reasonably expected to be exercised.

In addition, the Company has elected to apply the practical expedient to account for leases for which the lease term ends within 12 months of the date of initial application as short term leases.

Judgments

The Company has applied judgment to determine the lease term for some lease contracts in which it is a lessee that includes renewal options. The assessment of whether the Company is reasonably certain to exercise such options will impact the lease term, which significantly impacts the amount of lease liabilities and right-of-use assets recognized.

A large portion of the Company's leases include renewal options that are exercisable by the Company and not the lessor. The Company typically exercises these options when they relate to rooftop locations that service its fixed wireless network. From time to time, the Company will reassess whether these options are reasonably expected to be exercised and remeasure the lease liability accordingly.

**ii) Impacts on Financial Statements**

On transition, the Company elected to record the right-of-use assets based on the corresponding lease liability. The right-of-use assets represent the Company's rights to use the underlying assets and lease liabilities represent its obligation to make lease payments. Right-of-use assets and lease liabilities of \$30,507 were recorded on January 1, 2019. In addition, the Company had previously recognized prepaid assets and deferred rent liabilities at December 31, 2018 for timing differences in contractual operating lease cash flows. Under the new standard, timing differences are recognized in the right-of-use asset and lease liability and as a result, these prepaid assets and deferred rent liabilities were adjusted through the January 1, 2019 right-of-use asset balance. There was no net impact on opening retained earnings on adoption.

The following is a table that reconciles the Company's operating lease obligations at December 31, 2018 as previously disclosed in the Company's 2018 Consolidated Financial Statements to the IFRS 16 lease liability recognized on January 1, 2019. A reconciliation of the lease liabilities during the three and nine months ended September 30, 2019 is presented in Note 9 of these financial statements. The weighted average discount rate applied at January 1, 2019 was 9.29%.

**4. Revenue**

The Company's operations, main sources of revenue, and methods for recognition are those described in notes to the 2018 Consolidated Financial Statements. The Company's revenue is primarily derived from contracts with customers.

**a) Disaggregation of revenue**

In the following table, the Company's disaggregates revenue into two primary categories that depict the nature of its revenue streams.

		<b>Three months ended September 30</b>		<b>Nine months ended September 30</b>

	<u>84</u>

**d) Unsatisfied Performance Obligations**

The aggregate amount of revenue allocated to performance obligations that are unsatisfied as of September 30, 2019 was \$55,656. This represents contractual service obligations that the Company has yet to fulfill under its contracts with customers. The Company expects to recognize this revenue over the next 3 years which represents the average remaining contractual terms prior to renewals. This amount excludes obligations owing for month-to-month contracts as the unsatisfied term is calculated monthly.

**5. Current Assets**

**Details of selected current asset balances are as follows:**

**a) Cash and cash equivalents**

The Company's cash and cash equivalents are comprised of bank balances at major Canadian financial institutions.

**b) Accounts receivable**

The Company's accounts receivable is comprised of the following:

	<b>September 30</b>	<b>December 31</b>
	<b>2019</b>	<b>2018</b>
Trade receivables	\$ 2,848	\$ 3,519

During the three and nine months ended September 30, 2019, the Company wrote off assets with net book value of \$178 (Cost of \$329 less accumulated depreciation of \$151, \$69 of which was recognized against lease liabilities) and \$300 (Cost of \$700 less accumulated depreciation of \$400, \$97 of which was recognized against lease liabilities) respectively, which primarily represents replaced assets and obsolete assets disposed of for negligible value (2018 - \$104 and \$360, respectively). The corresponding loss on disposal is included in other operating expenses.

**Impairment of Property, Plant, and Equipment**

As result of the loss of certain customers and customer locations in primarily connectivity offerings during the three and nine months ended September 30, 2019, the Company determined that certain network assets were not recoverable. The assets were subsequently written down to their recoverable amount and an impairment charge of \$44 (Cost of \$94 less accumulated depreciation of \$50) and \$184 (Cost of \$391 less accumulated depreciation of \$207) respectively, was recorded in other operating expenses on the statement of comprehensive loss (2018 - \$64 and \$431, respectively).

**Term Debt Facility**

In June 2014, the Company entered into an agreement with a syndicate led by the National Bank of Canada ("NBC") to provide a \$50,000 credit facility that is principally secured by a general security agreement over the Company's assets.

In March 2015, the Company entered into an amended agreement with the syndicate led by NBC that increased the credit facility by \$35,000 (\$30,000 increase to the term debt facility and \$5,000 increase to the revolving facility) and extended the term from June 6, 2017 to June 30, 2018. Other terms were substantially consistent with the existing credit facilities.

In June 2017, the Company entered into a second amended agreement with the syndicate led by NBC that reduced the term debt facility from \$50,000 to \$40,000 (as a result of principal previously repaid), reduced the quarterly principal installment from \$1,250 to \$1,000 and extended the term from June 30, 2018 to June 14, 2021. Other terms were substantially consistent with the existing credit facilities.

In March 2019, the Company entered into a third amended agreement with the syndicate led by NBC which had the effect of excluding the impact of IFRS 16 on certain covenant calculations, and thereby maintaining accounting definitions in effect when the credit agreement was first entered into in June 2014.

The total \$75,000 facility that matures June 14, 2021 is made up of the following:

- \$10,000 revolving facility which bears interest at prime plus a margin percent. As of September 30, 2019, \$nil amount is outstanding (2018 - \$nil). Letters of credit issued under the facility totaled \$655 as of September 30, 2019 (2018 - \$655).
- \$40,000 term facility which bears interest at prime or Banker's Acceptance (at the Company's option) plus a margin percent and is repayable in quarterly principal installments of \$1,000. This facility was fully drawn upon signing the second amended agreement.

On September 30, 2019, \$29,800 of the term facility principal balance outstanding was in a Banker's Acceptance and the remaining \$200 was at a floating rate. During 2018, the Company entered into two amended interest rate swap contracts that mature June 29, 2021. The interest rate swap contracts have not been designated as a hedge and will be marked-to-market each quarter. The fair value of the interest rate swap contracts at September 30, 2019 was a liability of \$328 (December 31, 2018 – \$245) and is recorded in other long-term assets/liabilities (Note 10(b)), with a corresponding charge (recovery) for the change in fair value recorded in finance costs. The effective interest rate on the Company's long-term debt at September 30, 2019 was 5.34% which represents the Company's interest on its Banker's Acceptance net of its interest swap contracts.

As at September 30, 2019, the Company prepaid interest in the amount of \$355 which represents the net settlement of the Banker's Acceptance and is recorded as a reduction in the carrying value of the debt.

- \$25,000 available for funding acquisitions and will bear interest at prime plus a margin percent and is repayable in quarterly principal installments of 2.5% of the aggregate amount outstanding. As of September 30, 2019, this facility remains undrawn.

Financing fees incurred as part of the Company's debt origination and modifications have been recorded as a reduction in the carrying amount of the debt and deferred and amortized using the effective interest method over the remaining term of the facility.

The NBC facility is subject to certain financial and non-financial covenants which the Company is in compliance with at

September 30, 2019. Under this facility, the Company is subject to a cash flow sweep that could accelerate a certain amount of principal repayment based on a calculation outlined by the credit agreement not later than 120 days after the end of each fiscal year.

**9. Lease Liabilities**

The Company has many leases of which it is a lessee. The major categories of leases are building leases for the Company's fixed wireless services, data centre leases for colocation and cloud service offerings, corporate offices, and warehouses. Lease terms vary by category and range from 1 to 15 years. The following table is a summary of the changes in the lease liability during the three and nine months ended September 30, 2019:

**(b) Restricted Share Units (RSUs)**

For the three and nine months ended September 30, 2019, the Company granted nil and 39 RSUs, respectively, to certain key executives (2018 – nil and 151, respectively).

For the three and nine months ended September 30, 2019, the Company recorded compensation expense of \$216 and \$1,100, respectively (2018 – \$110 and \$291, respectively), related to the RSUs granted and paid \$nil and \$128, respectively (2018 - \$nil and \$nil, respectively), to the holders of RSUs that vested in the period.

**RSU modification and adjustment:**

On June 21, 2019, the shareholders of the Company approved the board of directors' recommendation to amend the RSU Plan whereby up to 300,000 common shares may be issued from treasury to settle current and future vested PSUs and RSUs. Following this amendment, the previous cash-settled liability was revalued to its modification date fair value and derecognized and a corresponding amount was recorded in contributed surplus on the statement of financial position. The impact of the change resulted in a \$701 stock based compensation charge recorded in net loss for the nine months ended September 30, 2019. In reviewing the accounting for this change, management identified that \$688 of this charge relates to fiscal 2018 which management concluded is not material to the current or previous financial statements.

As a result of the reclassification on the modification date, a balance of \$1,328 was recorded in contributed surplus related to the RSUs outstanding.

**(c) Performance Based Share Units (PSUs)**

For the three and nine months ended September 30, 2019, the Company granted nil and 39 PSUs, respectively, to certain key executives (2018 – nil and nil, respectively).

For the three and nine months ended September 30, 2019, the Company recorded compensation expense of \$5 and \$165, respectively (2018 – \$7 and \$20, respectively), related to the PSUs granted and paid \$nil and \$225, respectively (2018 – \$nil and \$nil, respectively), to the holders of PSUs that vested in the period.

**PSU modification and adjustment:**

On June 21, 2019, the shareholders of the Company approved the board of directors' recommendation to amend the PSU Plan whereby up to 300,000 common shares may be issued from treasury to settle current and future vested PSUs and RSUs. Following this amendment, the previous cash-settled liability was revalued to its modification date fair value and derecognized and a corresponding amount was recorded in contributed surplus on the statement of financial position. The impact of the change resulted in a net (\$16) stock based compensation recovery recorded in net loss for the nine months ended September 30, 2019. In reviewing the accounting for this change, management identified that \$71 of this charge relates to fiscal 2018 which management concluded is not material to the current or previous financial statements.

As a result of the reclassification on the modification date, a balance of \$5 was recorded in contributed surplus related to the PSUs outstanding.

The following table is a summary of the number of outstanding PSUs as at:
