

TeraGo

INTERNET 50/10

Fast and reliable internet connectivity
for business customers

TeraGo Internet 50/10 leverages state of the art fixed wireless access to deliver reliable and flexible point-to-point internet solutions. Well suited for small businesses or branch offices as an alternative to cable or DSL internet connections. TeraGo Internet 50/10 can also support SD-WAN deployments or redundant internet solutions.

BENEFITS:

Reliable

TeraGo has 20+ years of experience deploying wireless internet connections for business customers

- The most advanced radios and fixed wireless technology
 - National network reserved exclusively for business customers
